DETAILED ACTION

1. This application is in condition for allowance except for the following formal matters:

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "at least **two power contact pieces**" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Application/Control Number: 10/660,532 Page 3

Art Unit: 2832

Specification

3. The disclosure is objected to because of the following informalities: page 1, line 2 refers to "of claim 1", any reference to claims should be deleted.

Applicant is required to review all specification and make necessary corrections.

Claim Objections

4. Claim 8 is objected to because of the following informalities: ${}^{\text{"V}_3/A_3} {}^{\text{3}} {}^{\text{4}} {}^{\text{4}} {}^{\text{3}} {}^{\text{3}} {}^{\text{4}} {}^{\text{3}} {}^{\text{3}} {}^{\text{3}} {}^{\text{4}} {}^{\text{3}} {}^{\text{4}} {}^{\text{3}} {}^{\text{4}} {}^{\text{3}} {}^{\text{4}} {}^{\text{3}} {}^{\text{4}} {}^{\text{4}} {}^{\text{2}} {}^{\text{4}} {}^{\text{3}} {}^{\text{4}} {}^{\text{4}} {}^{\text{2}} {}^{\text{4}} {}^{\text{4}} {}^{\text{4}} {}^{\text{2}} {}^{\text{4}} {}^{\text{4}} {}^{\text{4}} {}^{\text{2}} {}^{\text{4}} {$

Allowable Subject Matter

5. Claims 1 - 20 are allowable over prior art of record, and claim 8 is subject to objection under paragraph 4 above.

The prior art of record, including Loebner [US 6,730,871] and Mizoguchi et al. [US 5,977,502], disclose a tubular hollow contact having an opening [6] that cooperates with a deflecting body [9; Abstract; ref. 6,730,871], second [12] and third [10] openings; first, second and third volumes, however do not disclose the specific relationship between the volume in the hollow contact V1 and cross section area A1, the first intermediate volume V2 and cross section area of the third opening A2, and the exhaust volume V3 and cross section area of the second opening A3. Nor it is obvious to provide the circuit beaker that has such volume/area relationship.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Van et al. [US 4,471,188], Kii et al. [US 4,239,949], Dufournet

Application/Control Number: 10/660,532 Page 4

Art Unit: 2832

[US 6,472,629], Yamagiwa et al. [US 5,231,256] all disclose puffer type gas-insulated circuit breakers.

7. Prosecution on the merits is closed in accordance with the practice under *Ex* parte Quayle, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO**MONTHS from the mailing date of this letter.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marina Fishman whose telephone number is 571-272-1991. The examiner can normally be reached on 7-5 M-T.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Elvin Enad can be reached on 571-272-1990. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

9. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
